Claims 1-18 and 25-27 are pending.

Claims 11 to 18 have been withdrawn from consideration.

***Election/Restrictions***

1. It is noted that product by process claims are properly grouped with product claims when a product – process of making type restriction is made. Accordingly, new claims 25 to 27 have been examined. The addition of such claims does not result in a requirement that the method claims be rejoined. Claims 11 to 18 remain withdrawn from consideration.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1 and 2 are rejected under 35 U.S.C. 102(e) as being anticipated by Larmande (U.S. 6,698,733). Larmande discloses a base deck 101; a platform 104; and an overmold portion comprising an elastomeric portion 120 and a rigid portion 111. The method limitation “concurrently formed” does not define over Larmande as the phrase does not find traction in the form of resultant unanticipated claimed physical structure.

***Allowable Subject Matter***

4. Claims 25 to 27 are allowed. Claims 3 to 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
